## New Member's Experience: Diahhadi Setyonaluri (Ruri)

During early months of my study back in Australia, I often got anxious when I had to speak in front of people. A counselor suggested me to join Toastmaster Club to help me dealing with the issue. After I joined and did few of table topics, I learnt that the Club had a supportive environment that helped me overcoming my anxiety. Few years after I returned to Indonesia, I decided to continue my membership with UI Toastmaster Club. I find that the Club has an even better supportive environment to expand my skill in public speaking. I had delivered my second project few weeks ago and got a well-constructed feedback as well as encouragement to improve my speaking skills. In this Club, I also have a chance to meet people from different background and learn from them. I think my journey with the UI Toastmaster will be benefiting for both my speaking and social skills.
